Z50 Vet

Diagnostic Ultrasound System

Excellent Veterinary Solution

Z50 Vet

With the ultimate combination of advanced technologies, comprehensive veterinary applications and integrated design, the Z50 Vet is well equipped as a superior image quality and versatility ultrasound scanner, which not only provides the best solutions for versatile applications, but does help to create a convenient operation experience for veterinary diagnosis. Z50 Vet system is truly a redefinition of the Color Doppler foundational solution, providing a perfect choice for your requirements of high image quality, versatility and affordability.

Wide Range of Veterinary Applications

- **Veterinary scanning modes:** B, Color, PW, Power, M
- **Veterinary transducer variety:** Micro-Convex, Convex, Linear, Endocavity
- **Veterinary applications:** reproductive organs, abdomen, cardiac, tendinous, small parts and more
- **Veterinary exam packages:** Measurement, Comment, Report and Body mark designed for canines, felines, equines, bovines, ovines and more

Outstanding Image Quality

- Phase Shift Tissue Harmonic Imaging
- **iClear™:** Adaptive Speckle Suppression Imaging
- **iBeam™:** Spatial Compounding Imaging

Experience with high mobility

- 60 degree tilting angle adjustable monitor
- Water-proof keyboard protection cover
- Integrated design with internal AC power adapter
- 1.5h uninterrupted scanning with rechargeable battery
- 15 inch High Definition monitor with full screen design

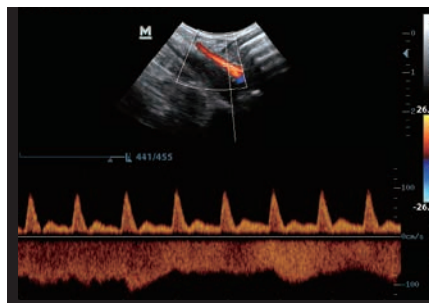

Accelerated Veterinary Workflow

- **iTouch™:** Quick image optimization in one touch
- **iZoom™:** Instant full screen image expansion with one button
- **iNeedle™:** Clear visualization of actual needle tip and shaft
- **iScale™:** Realtime Panoramic Imaging for a complete and extended view of animals
- **User-defined keys:** Programmable personalized operations tailored for veterinarian
